Finding answers. For life.

Goals and Objectives

To provide information on pre-hospital, emergency and acute stroke care for a multidisciplinary audience of health care providers.

To increase awareness of best practice in stroke transport, treatment and prevention.

To increase awareness of the need for early rehabilitation assessment in the acute stroke phase.

To provide an increased understanding of the need for early follow-up post-TIA (transient ischemic attack) in a hospital-based stroke prevention clinic.

To increase awareness of and support for the implementation of the Integrated Stroke Strategy for Saskatchewan.
